

**Distribution of graduation research projects for the fourth stage -  
morning for the academic year 2018-2019**

No	Supervisor name	Student names	Research project name
1	Prof. Dr.. Sabah Ibrahim Hammadi	Mustafa Rashid. Mohammed.Naser. S.M. Ahmed W.H. Hamdi	Survey of arthropods present in poultry waste
2	Prof. Dr.. Dhafer Fakhry Abdel Qader	Wassan Abdul Hussein Khalaf Hind Ahmed Knoush Hammoud Ahmed Jassim Mohammed Jazza Bakr Abdul Karim Abed Ayed Muhannad Hijab Saleh Khalaf	Studying the microbial content of the area behind the ear and testing the sensitivity of bacteria to the new generation of anti-life agents
3	Abdul Majeed Abdul Aziz Hammadi	Omar Khamis Jabr Wurood Abdullah Rasha Hamid Russell Khamis Noor Muhammad	A descriptive and quantitative study of Lebanon's fingers of students (males) in the Department of Biology
			A descriptive and quantitative study of Lebanon's fingers of the female students of the Department of Biological Sciences
4	Jamal Abdul Rahman Ibrahim	Abdullah Qais Najm Maha Fahad Suhail Muhammad Sarhan Matar Hatem Abdullah's prayer Ayat Saadi Matar Deli	A study of the health status from the microbial aspect of the atmosphere of the obstetrics and gynecology hospital and the general hospital in Ramadi
5	Prof. Dr Samir Musharraf Khalaf	Safa Abed Mahmoud Khudair Muhammad Abbas Abdullah Ahmed Faisal Hamad Sarah Yahya Ammar Yasser	Study of some physiological variables of house birds in Ramadi city

6	Assist Prof.Dr Harith Kamel	Safa Abed Hammad Mahmoud Khudair Aliwi Muhammad Abbas Abdullah Ahmed Faisal Hamad Sarah Yahya Ismail Ammar Yasser Ahmed	Inhibitory activity of crude and purified extract of cladophora isolated from the local environment
7	Assist Prof. Dr Haider Kazem Yacoub	Muhammad Ayyash Hussein Samir Hussein Ali Bilal Jassim Mohammed Mustafa Eman Abdul Razzaq Farhan Lina Arkan Nassif Jassim Ahmed Yassin Abdel Karim	Study of the inhibitory activity of garlic plant extracts against some types of pathogenic bacteria.
8	Assist Prof. Dr Louay Hatem Ali	Somaya Hamad Sunnis Abdel Salam Anaz Safa Shehab Hossam Said Fatima Issa Sarhan Rawan Salam	Study of some biochemical changes for people with thyroid diseases
9	Dr. Mahmoud Ali Al-Shaher	Sarah Falah Mikhliif Jassim Wafaa Hussein Zaid Rasmi Mohammed Khawla Jamil Sweid Hussein Abdel Qader Asaad Abdel Alim	The effect of foliar spraying with different concentrations of nano zinc oxide fertilizer on some germination traits, vegetative characteristics and drought resistance of Allium sativum
10	Dr. Nafeh Ahmed Saud	Ali Hussein Ali Enas Khaled Abdel Mustafa Rahim Noor Nafie Cactus Hamza Mohamed Faraj Khalaf	The role of spirulina in removing the oxidative damage of methotrexate treatment on the liver and kidney of local rabbits.

11	Raghad Walid Khalil	Alaa Aziz Inad Mustafa Ali Taha Mohamed Saber Hanfeesh Mohamed Taqwa Imad Ahmed Salman	Study of the spread of digestive worms in pigeons and domestic chickens
12	Mohamed Abdel Aziz Ismail	Insaf Jassim Mohammed Karam Aseel Ghanem Nawaf Muhammad Abdul Samad Thamer Abdullah Ibrahim Ammar Khalil Matar Aswad	Study of the effect of dosing with aqueous solution of sugar and honey on antibody levels in New Zealand rabbits
13	Samir Sarhan Khalil	Safa Abdel Jalil Aziz Afra Hussain Muhammed Samyan Peace be upon you, Ali Faris Naba Youssef Ismail	Effect of <i>C. spinosa</i> seed extracts on some pathogenic bacteria

**Distribution of graduation research projects for the fourth stage -  
evening for the academic year 2018-2019**

No	Supervisor name	Student names	Research project name
1	Prof. Dr. Sabah Ibrahim Hammadi	Ghassan Raja Schniter Adnan Omer addy	A descriptive study of scorpions
2	Prof. Dr.. Dhafer Fakhry Abdel Qader	Ahmed Muheisen Abdullah Ibrahim Khalil Awaid Ayman Majed Latif Walid Khaled Ahmed Alwan	Isolation of bacteria from the area behind the ear of a sample of students from the Department of Biology
			Isolation of fungi from the area behind the ear for a sample of students in the Department of Biology

3	Abdul Majeed Abdul Aziz Hammadi	Rashid Ali Rashid Tayseer Star Ahmed Abdul Wahab Muhammad Jassim Aws Said Ahmed Mohamed	Genetic repetition and individual repetition of some phenotypic and genetic traits and some diseases prevalent among the population of the Bubali clan.
			Genetic repetition and individual repetition of some phenotypic and genetic traits and some diseases prevalent among the population of the Al-Bouisi clan
4	Jamal Abdul Rahman Ibrahim	Ali Hashem Hassan Shaima Khalil Abboud Sarah Saad Mikhliif Faris Jamil Hamad	Investigating the role of local paper currency in transmitting germs among its dealers in the city of Ramadi  Sanitary evaluation of drinking and bottled water produced locally and used in different areas in the city of Ramadi
5	Prof. Dr Samir Musharraf Khalaf	Maen Ali Abdul Ali Please Riyad Issa Hajar Majid Hammoud Fayyad Omar Atallah Muhaisen	Determination of the chromosomal genotype of the house sparrow
			DNA extraction from blood samples of some domestic birds
6	Assist Prof.Dr Harith Kamel	Yasser Riad Abdel Youssef Nemat Mahmoud Salwa Abdullah Sir Shaker Juma	Studying the fatty acid content of some algae isolated from the local environment and studying their inhibitory activity on pathogenic bacteria.
7	Assist Prof. Dr Haider Kazem Yacoub	Russell Ahmed Nawaf Rashid	Effect of aqueous extract of pomegranate peel on some types of pathogenic bacteria
8	Assist Prof. Dr Louay Hatem Ali	Huda Mikhliif Hamad Zulfiqar Saadi Gharkan	Study of some physiological changes for people with thyroid diseases
9	Dr. Mahmoud Ali Al-Shaher	Hamid Abed Gham Ammar Muhammad Ali	Effect of foliar spraying with licorice root extract on germination characteristics of yellow corn Zea mays
			The effect of foliar spraying with different concentrations of nano zinc oxide fertilizer on some traits of wheat Triticum aestivum

10	Dr. Haitham Latif Abdel Hadi	Donia Karim Zbar Hammadi Ahmed Talib Hammad	Study of the picture of total lipids in the serum of patients with diabetes
11	Dr. Farrad Hawass Musa	Mohammed Jassim Hamid Walid Khaled Mohamed	Bacterial contamination of raw milk in Ramadi city
12	Dr. Mohamed Fadel Abboud	Ahmed Khaled Mohamed Saja Nawaf	Studying the effect of adding algae extract on the morphological characteristics of wheatgrass
13	Dr. Nafeh Ahmed Saud	Mustafa Amjad Abdel Qader Maen Abdel Hamid Ahmed	The role of spirulina in removing oxidative stress for the treatment of methotrexate used in domestic male rabbits on the reproductive system
14	Mohamed Abdel Aziz Ismail	Yaqin Farhan Mohi Reem Mohamed Hussein	Studying the effect of the number of cigarettes smoked on blood viscosity
15	Dr. Ali Abed Sharrad	Ahmed Awad Raghad Ziyad Abdel Razzaq	Evaluation of the suitability of water supplied from a drinking water purification plant for human use
