

Dr. Ra'id Khider Salman Al-Fahdawi

Scientific Rank: Teacher

Specialization : Physics of Material/ Polymer Gel Electrolytes

Institute : Department of Physics, College of Education for Pure Sciences , University of Anbar.

No.	Paper Name	Journal Title	Year
1	A study of Mechanical properties for polymer composites using computer modelling.	Journal of Anbar University for pure science	2006
2	A study of effect of reinforcing fibres direction for the polymer composites on the thermal characterization using computer modelling.	Journal of al-anbar university for pure science	2008
3	Modeling and study the Physical properties of a Thermal Actuator for Micro-Electromechanical systems (MEMS) Applications.	Tikrit Journal of Pure Science	2011
4	A New Approach to Estimate Hansen Solubility Parameters using Maple Software	International Journal of Applied Engineering Research	2017
