## **Practicum and Classroom Practices**

### **Course Description:**

The practicum experience provides students with the opportunity to apply and integrate knowledge acquired through coursework. In clarifying and broadening career goals, the practicum experience assists students in discovering, developing and refining necessary competencies and skills for their proposed career objectives. The Practicum course is designed to expose students to their professional roles by completing hours in the field. The course instructor will conduct at least one site visit per semester for each student enrolled on the Practicum.

The Practicum is a professional field experience program designed to provide the student with the opportunity to work in a professional environment under the supervision of an experienced teacher. This opportunity allows students to integrate the theory and knowledge of course content with the application of principles and practices in a work environment, including these specific objectives:

- To gain practical experience based on the understanding and application of theoretical knowledge.
- To observe the analysis of and solutions to problems arising in professional work settings.
- To interact with colleagues in a professional work environment.
- To participate in a representative range of professional activities in the work setting.
- To develop a professional self-awareness.
