

**College of Pharmacy, University of Anbar**  
**Graduation Projects, 2019-2020**

S.	Research Title	The First Supervisor	Second Supervisor	Participating Students	Research field
1.	Comparative quality evaluation of different brands of Levocetirizine tablets available in Iraqi Market	Professor Assis: Jassim Hammadi Hassan	Lecture Assis: Abdul Karim Hamad Aifan	Mona Maad Ibrahim Zeina Abdullah Abbas Rafal Sami Jarrad	Pharmacology
2.	In Vitro:Antibacterial activity and phytochemical analysis of alcoholic extract Matricaria chamomilla flowers against pathogenic bacteria	Lecture: Atheer Abdul Hamid Khashan	Lecture Assis: Osama Hassan Abdel Wahab	Aya Emad Saad Maryam Salah Hassan Hajar Farid Fares	Pharmacology
3.	Relation between hypothyroidism and vitamin D deficiency in human	Professor lecture: Esraa Abdul Karim Maarouf		Maryam Saad Abbas Khaled Hassan news Salman Shehaza's roar Haneen Shaaban Saleem	Pharmacology
4.	Comparative study on the effect of combination Ceftriaxone /sulbactam and Tazobactam by using disc diffusion method against staphylococcus aureus	Professor Assis: Essam Mohamed Abdullah	Lecture Assis: Marwa Shakib Dhanoon	Rand Maulud Effat Zahraa Anas Tahseen Mustafa Samir Issa	Pharmacology
5.	Development and validation of bioanalytical assay for the determination of candesartan and candesartan cilexetil in rat plasma	Professor Assis: Atheer Khalaf Zughair	Lecture Assis: Yuseef Shaabn, Suhail Muhammed	Moath Khairallah Thabet Jafar Sadiq Fayeze Lamia Hamed Abdullah	Pharmacology
6.	Quality of life of asthmatic patients in Iraq	Lecture Assis: Mahmud Maged		Qufan Taha Jaber Mayada Moayad Talib Sarah Khaled Mesir Mays Abdul Muhaimin Muhammad	Pharmacology
7.	Assessing Knowledge of Community Pharmacists on Cancer	Lecture Assis: Mahmud Maged	Lecture Assis: Qutaiba Qusay Hameed	Ibrahim Omar Sadiq Duaa Raad Saleh Najwa Mahmoud Shukr Zubaida Osama Abdel Rahman	Pharmacology

**College of Pharmacy, University of Anbar**  
**Graduation Projects, 2019-2020**

8.	Synergistic therapeutic effects of Nigella sativa and Berberine on Streptozotocin-Induced Diabetes in Rats	Lecture Assis: Yuseef Shaabn	Professor Assis: Atheer Khalaf Zughair, Lecture Assis: Suhaib Mohammed	Nour Abdel Rahman Yassin Samia Moayed Mahmoud Elaf Muthanna Muhammad	Pharmacology
9.	The Effect of Metformin Therapy on the Regulation of IL-17 and IL-27 in Type 2 Diabetic Foot Patients	Professor Assis: Mohanad Abdulmageed	Lecture Assis: Hateem Mohammed Hadeed	Nabaa Muhammad Abbas Ruqayya Shaker Mahmoud Taibah Abdullah Al-Taif Jassim	Pharmacology
10.	Evaluation of antibiotic prescription in Al-Ramadi teaching hospital for paediatrics	Lecture Assis: Yassir Mohammed Farhan		Ahmed Ali Abdel Karim Riam Hatem Abbas Aisha Khaled Rashid	Pharmacology
11.	A comparative study between brand and generic antibiotics versus nosocomial infections	Professor lecture: Yasser Mofeed Abdul Latif		Masabeeh Bashar Ali Adnan Maryam Ahmed Matlup	Pharmacology
12.	Molecular identification of the causative agent of pharyngitis by using conventional Polymerase Chain Reaction technique.	Professor Assis: Esraa Adnan Abdul Jalil		Zainab Salim Rahim Hoda Younes Khudair Tuqa uhammad Jamaan	Pharmacology
13.	Study of increasing antibiotic resistance and its effect on nosocomial infection	Professor lecture: Shaima Hafeth Muteab		Toka Adnan Abdel Sattar Alaa Abdel Latif Mahmoud Esraa Khairy Mohammed	Pharmacology
14.	Compartive study between Ganoderma lucidum and Metformin effect on the histological and biochemical variable in diabetic rats	Professor Assis: Nahida Ibrahim Hammadi		Messages of grace are fans Mona Maad Ibrahim	Pharmacology
15.	Synthesis of succinlic acid derivatives with suspected biological activity.	Lecture Assis: Othman Maki Sagair	Lecture Assis: Abdul Karim Hamad Aifan	Shahd Qais Musharraf Sidra Ziyad Tariq Atta Maher Tawfik	Pharmacology
