

## The Educational Administration and its Relationship to the Scientific Ethics

The Deanship of the College of Physical Education and Sports Sciences at the University of Anbar organized a scientific seminar on Monday, 27/11/2017 which pinpointed the relation of the scientific ethics to the educational administration. It is an awareness seminar in which, Prof. Dr. Jumah Mohammed Awadh(chairman of the scientific committee, and one of the distinguished professors at the college) delivered his valuable lecture through which he handled a set of integrated and coordinated functions of the administration including planning, organization, coordination, leadership, decision-making, control, and follow-up to achieve the goals that are designed to serve the community.

The lecturer talked about the characteristics, objectives, and types of administration and he concluded his lecture by emphasizing the ethics of the profession and directing the educational departments to scientific continuity to improve the morale that contributes to the progress of the educational process in all fields.

The seminar was presented by Dr. Khalid Salih Hummadi, a member of the media committee, and it was attended by a group of the professors and students of the college.
