FOR THE FIRST TIME IN ITS HISTORY, THE UNIVERSITY OF ANBAR HOSTS THE 5TH MEETING OF THE ADVISORY COMMITTEE

His Excellency the Minister of Higher Education and Scientific Research, Dr. Naeem Al-Aboudi, has chaired the 5th meeting of the Advisory Committee, which was hosted by the University of Anbar in the presence of the advanced staff members of the Ministry and the presidents of public universities. The President of the University of Anbar has welcomed the honorable attendees, saying, "I am pleased to convey to you the greetings of the University's employees and students who expressed their great happiness and deep pride in hosting the 5th meeting of the esteemed Advisory Committee in the University of Anbar. This is an important event, the first of its kind in the University's history, which extends for nearly thirty-six years." The President of the University has expressed his thanks to His Excellency the Minister for his kind attention and honoring the University by hosting the Advisory Committee in its 5th meeting for the year 2023. At the end of the meeting, His Excellency the Minister of Higher Education and Scientific Research praised the efforts exerted in organizing this meeting, which he considers as an outstanding meeting, expressing his thanks to the President of the University of Anbar and all University's employees for their hospitality, warm welcome and organization.

A RESEARCH TEAM PUBLISHES A BOOK ON LEARNING MANAGEMENT SYSTEMS

Under the supervision of the President of the University Prof. Dr. Mushtaq Talib Saleh Al-Neda, the e-learning team at the University of Anbar published a book entitled «Learning Management Systems». It provides a detailed explanation with visual materials on how to teach using modern technology. Learning management systems (LMS) are platforms to help teachers on managing educational learning courses. It is also used to manage the educational process and various activities in synchronous and asynchronous environments.

The book contains a detailed study about the education management systems to be a road map towards benefiting from educational platforms in supporting and developing the educational process at the university to be in the ranks of advanced international universities in this field.

The book also includes six main chapters :

(Canvas, Black Board, Moodle, Google Classroom, Easy Class, Edmodo)

OPENING PROSPECTS FOR SCIENTIFIC COOPERATION WITH LIVERPOOL HOPE UNIVERSITY.

On the margins of his visit to Britain and within the framework of opening horizons of scientific and academic cooperation with advanced international universities, including British universities, the President of the University, Prof. Dr. Mushtak Talib Saleh Al-Neda held a meeting with the chancellor of Liverpool Hope University, Professor Claire Ozanne, and Pro-Vice chancellor, Professor Atulya K. Naga. The main themes were set for a future memorandum of understanding to open the horizons of scientific

cooperation and scholarships for postgraduate students and joint scientific research and many topics that will contribute to further academic advancement of our university.

Al- Anbar Medical Journal

AL-ANBAR MEDICAL JOURNAL IS SCOPUS INDEXED.

Prof. Dr. Khaled Farouk Abdel Ghafour and Asst. Lecturer Laith Latif Hamed from the College of Science achieved the patent entitled (An Improved Method for Adopting the Analysis of the Level of Beta-Eristine Protein in the Blood as one of the Diagnostic Tests for the Detection of Type 2 Diabetes). The research team was able to find an improved method to adopt the analysis of the level of Beta-Eristine protein in the blood as an additional diagnostic factor to determine diabetes mellitus and its complications (type 2) with good accuracy and sensitivity for use in the medical, research fields and in the diagnostic laboratories of the Ministry of Health. It is worth noting that the patent is the product of a joint team work amongst different Iraqi universities.

A MEMORANDUM OF UNDERSTANDING WITH LIVERPOOL JOHN MOORES UNIVERSITY

On the margins of his visit to Britain and within the framework of opening horizons of scientific and academic cooperation with advanced international universities, including British universities, the President of the University, Prof. Dr. Mushtak Talib Saleh Al-Neda, signed a memorandum of understanding with Liverpool John Moores University.

His Excellency discussed with the chancellor of the University, Mark Power, the main themes of the memorandum, including the exchange of students, the provision of free scholarships for our university, joint research, teaching staff training, joint supervision of postgraduate students, and other important themes.

CELEBRATING THE INTERNATIONAL WOMEN'S DAY.

The Woman`s Empowerment Unit at the University of Anbar organized the fourth festival for woman on the occasion of the International Woman`s Day, held under the slogan «The Iraqi Woman is a Partner in Sustainable Development». On this occasion, the President of the University says: "Every year we gather together to celebrate the mother, sister, wife and daughter. This indicates that we have begun to see the clear and tangible effects of the great role that the woman plays in society at all levels. The woman, at the University of Anbar, stands by her brother, the man, in all the University faculties and institutions to serve the University, its affiliates, and students. She has attained clear administrative, scientific and research achievements and successes. So, we should celebrate her, be proud of her status and appreciate her efforts in gratitude for her virtues."

The ceremony included a theatrical demonstration produced by the Woman`s Empowerment Unit, and presented by a number of female students at the University. A video titled «The Woman» was also presented, reflecting the efforts of the Iraqi woman and her role in community service. A video show entitled «The Able», which tells a success story of college female students defying the difficulties to achieve their dreams was also presented. In addition to presenting an activity for the Productive Cooperative Society for the hearing-impaired and speaking-impaired. At the end, the Woman`s Empowerment Unit awards honorary shields to the President of the University and the Vice President for Administrative Affairs.

ACTIVITIES OF THE 2ND INTERNATIONAL SCIENTIFIC WATER CONFERENCE

On the occasion of the International Water Day, the activities of the 2nd International Scientific Water Conference, which was held by the Upper Euphrates Basin Development Center at the University of Anbar in cooperation with the Faculties of Engineering, Agriculture, Sciences and Basic Education in Haditha, were launched under the slogan (Water between Scarcity and Sustainability) in the venues of Haditha city in Anbar Province.

The Conference aims to confront the challenges of the climate change by adopting strategies for optimal water management, sustainability of the ecosystem in dry areas, preserving biodiversity and using renewable energy techniques as a way to reduce pollution and the effects of global warming. It also aims to address the sustainability of

water resources to enhance food security, overcome water scarcity and confront desertification through developing irrigation systems within the framework of the sustainable development.

A WORKSHOP ON SCIENTIFIC JOURNALS AND THE 2023 UNIVERSITY'S VISION

The Scientific Journals Unit at the University of Anbar organized a workshop under the title «Our Scientific Journals, Our University's Vision 2023», for the editorial boards of the journals issued by the university, The workshop included a lecture by Assist. Prof. Salwan Mahmoud, Director of the Scientific Research Division, in which he dealt with the approved criteria for evaluating the journal, how to increase citations and obtain external articles, as well as the role of the editor in the journal, such as reviewing scientific journals, editing them, and following up them on the web, and how the journal can obtain citations, and finally the scientific research ethics and publishing ethics their importance to whom they are written and who reads them.

The President of the University and the vice- president stressed during their attendance at the workshop on choosing the authentic research for publication in the journals, noting that we are working step by step and within the strategic plan of the university to include our journals in Scopus, expressing his thanks for the efforts that are being made to achieve this goal in service of the scientific process in our dear university.

THE UNIVERSITY OF ANBAR

THE UNIVERSITY OF ANBAR HOSTS THE JOB FAIR HELD BY THE WORLD FOOD PROGRAM

The University of Anbar hosted the job fair that was held by the World Food Program in cooperation with Anbar Governorate and the University of Anbar. This fair is one of the activities of the Economic Empowerment Program through the development of skills and businesses. In his speech on the occasion, the President of the University stressed the importance of the youth and their role in

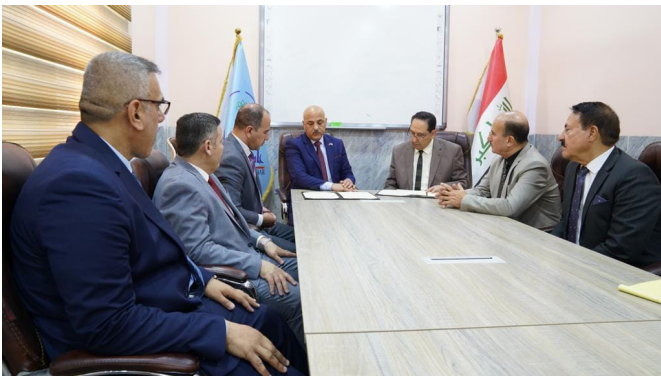

societies, as they constitute an important human wealth that has great potentials that can be exploited in order to serve these societies and countries. He indicated that the University of Anbar is always keen to keep positive interaction with the needs of the society and the requirements for its development. The exhibition program also included a number of messages by the representative of the Governor, representatives of the World Food Program and the Director of the Vocational Training Center. Then a short video clip about the economic empowerment project was shown. In addition, an awareness tutorial was presented on the way to apply for jobs by the Rehabilitation and Employment Division at the University.

SCIENTIFIC AND ACADEMIC COOPERATION BETWEEN THE UNIVERSITY OF ANBAR AND AL-HUDA UNIVERSITY COLLEGE

In implementation of the directives of the Ministry of Higher Education and Scientific Research in building bridges of scientific and academic cooperation between public and private universities, the vice-President for Scientific Affairs, Prof. Dr. Muthanna Muhammad Awwad, signed a scientific and academic cooperation agreement with Al-Huda University College aimed at integrating scientific capabilities and strengthening the bonds of joint scientific cooperation and believing in the importance of relying on the Scientific energies, capabilities and capabilities of University of Anbar (the mother university in the governorate) as well as in strengthening the status of Al-Huda University College and supporting it with expertise.

The vice-president expressed the readiness of our university to provide all facilities that serve the academic interest in our governorate and our dear country. In turn, the Dean of Al-Huda University College expressed his happiness at signing this cooperation, stressing that the terms of the agreement will be activated with all colleges, especially the College of Engineering and the College of Pharmacy, in a way that serves the interests of both parties.

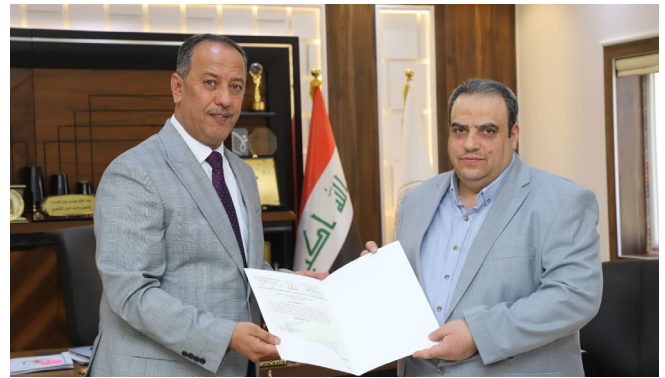

THE COLLEGE OF ENGINEERING RANKS SECOND IN THE STUDENT ENGINEERING FORUM.

The Department of Chemical and Petrochemical Engineering in the College of Engineering at the University of Anbar ranked second in the Student Engineering Forum for the graduation projects of the faculties of engineering in the Arab world and Islamic countries, which was organized by Sultan Qaboos University (Sultanate of Oman) for the period from 2023/2/26 to 2023 / 3/2 in various engineering disciplines.

**The department participated in a research project under the title
Production and Characterization of Biodiesel from Waste Cooking Oil**

The research was prepared by students of the fourth stage in the department, namely Abdul-Jalil Qusay Jumaa and Musab Salam Kafi, and under the supervision of Dr. Omar Mustafa Hussein, head of the department, and Assist. Prof. Khaled Awadh Muhammad, a staff member in the department.

THE INTERNATIONAL DAY OF LAPAROSCOPIC SURGERY OF THE URINARY TRACT AT THE COLLEGE OF MEDICINE, UNIVERSITY OF ANBAR

the College of Medicine at the University of Anbar holds the 2nd International Day of Urological Laparoscopic Surgery which was organized by the Scientific Council of the Fellowship of Laparoscopic Urology Surgery in the Arab Council for Health Fields in Iraq in cooperation with the College of Medicine at the University of Anbar and Anbar Health Department with a wide Arab and local participation. In his speech at the conference, the President of the University of Anbar stressed that the University of Anbar is pioneering in cooperation with institutions and universities in terms of holding scientific conferences that are of interest to the country,

especially since the University has scholars and academics who have scientific publications published in reputable international journals. Hence, our University has scored top positions in the international rankings, the latest of which is its register in the famous British Times Ranking.

The Conference aims to disseminate to the world Iraq's achievements in terms of development, in a way that parallels European countries. It also aims to clarify the latest modern developments in endoscopic surgery, and the continuous endeavor to support this development through lectures and scientific research that have been discussed during the Conference panel discussions.

THE UNIVERSITY OF ANBAR TEAM COMES SECOND IN THE IRAQI UNIVERSITIES VOLLEYBALL CHAMPIONSHIP

the University's team ranked second in the Iraqi Universities Volleyball Championship / for Students 2023, in which (43) Iraqi universities participated.

The final match was held between our university team and the University of Baghdad team in the governorate of Najaf at the Islamic University hall and ended with the win of the team of the University of Baghdad. Prof. Dr. Jumaa Mohamed Awad, the coach of the team, congratulated the team members for achieving second place stressing that this achievement would not have been achieved without the great support of the President of the University and direct follow-up by the vice- President, saying that the University has the capabilities that qualify it to obtain advanced positions in the upcoming Championships.

THE UNIVERSITY PRESIDENT INAUGURATES VENUES AND LABORATORIES OF THE DEPARTMENT OF ENVIRONMENT

Prof. Dr. Mushtak Talib Saleh Al-Neda, President of the University, inaugurated the venues and laboratories of the Department of Environment in the College of Applied Sciences-Heet, after rehabilitation. He indicating that the University, with the diligence of its employees, the Department of Construction and Projects, and the supporting bodies, continues the urban achievements in the various University sites.
