## Graduation Convocation of the University students for the academic year 2023/2022

◆ The University of Anbar hosts the thirtieth meeting of Arab Council for Student Training and Innovation

# GRADUATION CONVOCATION OF THE UNIVERSITY OF ANBAR

# BAR STUDENTS FOR THE ACADEMIC YEAR 2022-2023

## IN A HISTORIC EVENT... THE UNIVERSITY OF ANBAR HOSTS THE THIRTIETH MEETING OF ARAB COUNCIL FOR STUDENT TRAINING AND INNOVATION

The University of Anbar hosted the thirtieth meeting of the management of the Arab Council for Training and Student Innovation in the presence of the Secretary General of the Association of Arab Universities, Professor Dr. Amr Ezzat Salama, the President and members of the Arab Council for Training and Student Innovation, and a number of academic figures. The attendees discussed a number of important decisions, in addition to presenting the follow-up report on the implementation of the decisions of the previous twenty-ninth annual meeting for the year 2023 and discussing the Council's activities for the same year, as well as determining the place and date of the thirty-first forum to exchange offers from Arab university students and the place and date of the Board of Directors meeting for the year 2025, in addition to a number of important topics related to Arab students in Arab universities.

## THE ASSOCIATION OF ARAB UNIVERSITIES CHOOSES THE PRESIDENT OF THE UNIVERSITY OF ANBAR AS A MEMBER OF THE ARAB COUNCIL FOR TRAINING, STUDENT INNOVATION AND ACADEMIC EXCHANGE.

The General Secretariat of the Association of Arab Universities decided to choose the President of The University of Anbar, Professor Dr. Mushtaq Talib Saleh Al-Nada, as a member of the administration of the Arab Council for Student Training and Creativity affiliated with the Association of Arab Universities, headquartered at the University of Jordan - Hashemite Kingdom of Jordan for the years 2027 - 2024, in addition to selecting him as a member of the administration of the Arab Council for Academic

Exchange, headquartered in Palestine Ahliya University - Palestine for the next three years. This selection comes on the sidelines of the conference of the Association of Arab Universities, which was hosted by the capital, Baghdad, in its fifty-sixth session, in the presence of members of Arab universities and participating university presidents, which witnessed a resounding success at all levels. It is worth noting that the Secretary-General had previously praised the efforts of

the President of the University of Anbar throughout the period of preparation for the conference and appreciated his role in the Supreme Coordination Committee and in Anbar University's hosting of the thirtieth meeting for training and student creativity, which met with great success.

## AN ACADEMIC COOPERATION AND RESEARCH PARTNERSHIPS WITH THE UNIVERSITY OF LILLE

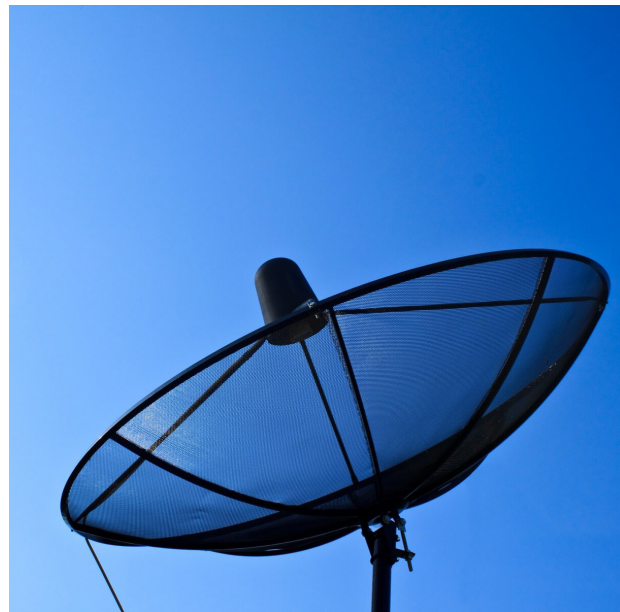

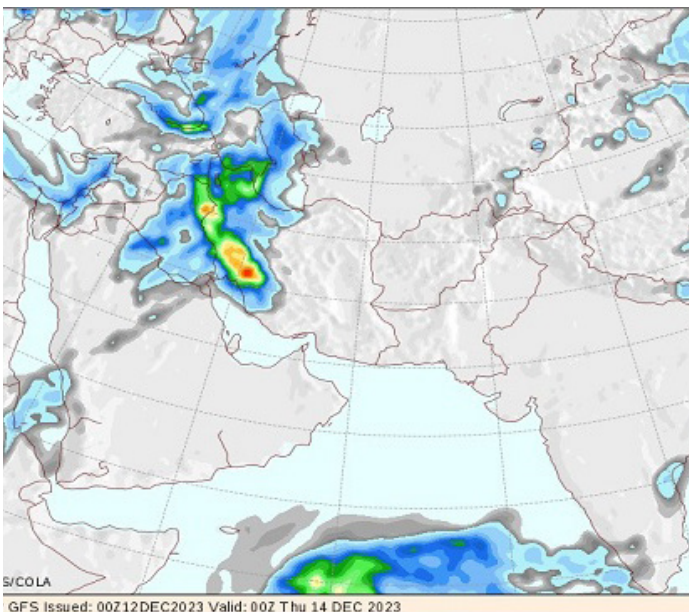

Within the framework of the official visit to France, the University of Anbar delegation, headed by the President of the University, Prof. Dr. Mushtak Talib Al-Neda, accepted the invitation from the French Embassy and the University of Lille, known for its academic reputation at the European level. The University of Lille consists of four specialized schools that focus primarily on the environment, health, energy, and computer engineering, in addition to five advanced centers for nurturing innovations. A brief presentation was given about the achievements of the University of Anbar, its strategic plans, and its position within the approved international rankings.

## USING SATELLITES, THE UNIVERSITY OF ANBAR ORIGINATES A WEATHER FORECAST IN ANBAR PROVINCE

The Upper Euphrates Basin Development Center - University of Anbar, and in order to achieve the objectives of the sustainable development according to the vision of University of Anbar 2030, specifically those related to the subject of studying climate change and providing databases for researchers and those who are interested in this important field, the Center originated a private bulletin for weather forecasts in Anbar Province using satellites. It is prepared by (Assist. Prof. Dr. Ahmed Jassam Mukhlif), a researcher specialized in climate in the Department of Natural Resources Development at the Center.

## THE UNIVERSITY PRESIDENT AND ITS RESEARCHERS WIN AL AIN AWARD FOR SCIENTIFIC RESEARCH

His Excellency the Minister of Higher Education and Scientific Research, Dr. Naeem Al-Aboudi, honored the president of the University of Anbar and its researchers, the winners of the Iraqi-Al Ain University Award in its fourth edition for the year 2024, which included pioneering researchers, top university achievers, owners of papers which were published in journals of high-impact factors,

authors of published books, and distinguished woman academics, and they are:

- Professor Dr. Mushtaq Talib Saleh Al-Nada - President of the University
- Asst. Prof. Dr. Mazen Abed Mohammed, College of Computer Science and Information Technology
- Dr. Ahmed Saud, College of Pharmacy
- Asst. Prof. Dr. Alaa, College of Sciences
- Asst. Prof. Dr. Mushtaq Talib Hussein Yaseen Alqaisy at the College of Administration and Economics.

This came during the honoring ceremony, which was attended by a group of representatives, deputies, university presidents, general directors, teachers, and researchers. In his speech, the Minister of Education emphasized the importance of scientific research in addressing development issues. He indicated that the Ministry places scientific research at the top of its priorities, stressing that this vital field represents a fundamental focus in developing services and achieving comprehensive progress, which is made by honoring university presidents whose institutions have achieved a positive indicator in the field of scientific publishing.

# LAUNCHING A VIRTUAL PLATFORM FOR THE UNIVERSITY ALUMNI

The platform aims at providing opportunities for graduates to communicate with employers, and facilitate the process of searching for job opportunities available in the market. The platform is also a virtual space that brings together university graduates of all specializations.

The “University of Anbar graduates” platform is also a way to discern student news and developments in their careers. Thanks to this addition, the platform becomes more than just a tool for searching for job opportunities, but rather an interactive window that allows graduates to share their experiences and achievements.

The “University of Anbar graduates” platform constitutes a digital interface that enables the university to follow the paths of its graduates and provide them with the necessary support in their professional journey. This continuous communication strengthens the strong ties between the university and its graduates, and reflects the dedication to achieving the strategic vision of University of Anbar in supporting and developing the capabilities of its graduates.

We invite all graduates of the University enter the platform and register by following the qr code below:

## WITH THE PROJECT (STUDY IN IRAQ), THE UNIVERSITY CELEBRATES ITS INTERNATIONAL STUDENTS

The University of Anbar has organized a welcome celebration for the international students who were accepted to study within the Initiative (Study in Iraq). In a speech delivered by him, the President of the University has welcomed the international students emphasizing that “this University is yours and you are among your people. The University’s facilities are accessible for all those who want to acquire science and knowledge».

Then, on behalf of his colleagues, one of the international students has delivered a speech in which he extended his thanks and gratitude to the President of the University and to all affiliates for their efforts in providing all necessary services. A video was displayed embodying the life of one of the international students at the University. After that, the international students expressed their impression about their study life at the University, mentioning the most important issues. A discussion about these issues was held. The celebration was concluded with a banquet served by the University’s Presidency in honor of the international students who expressed their great comfort to be among their beloved people.

## SCIENTIFIC COOPERATION PROJECT WITH GERMAN UNIVERSITIES

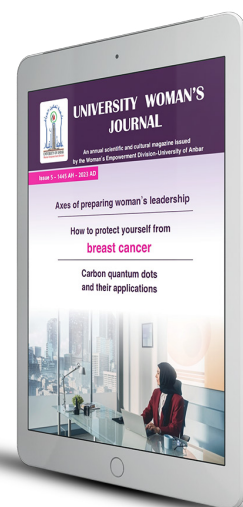

Within the framework of the University's strategic plan to open up to globalization and efforts towards the internationalization of the University, a scientific and research cooperation project was approved with (DAAD). Six Iraqi universities were included in this cooperation,

including the University of Anbar, to cooperate with German universities in the field of sustainable energy, climate changes, water resources, green education, and the Bologna path in higher education. In this regard, a virtual meeting was held in the presence of the President of the University, Prof. Dr. Mushtak Talib Al-Neda, the Vice President for Scientific Affairs, Asst. Prof. Dr. Wisam Hashem Khalil, and the Director and staff of the Department of Scholarships and Cultural Relations at the University Presidency, with the representative of DAAD and three large specialized German universities, coordinated by the Director of the Arab and International Organizations Department at the Ministry's headquarters.

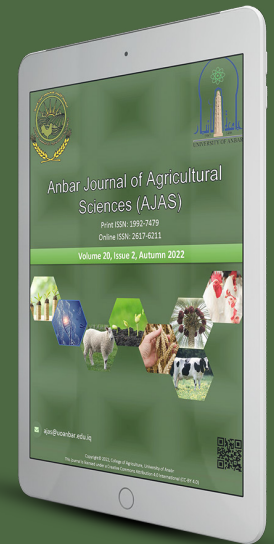

## RELEASING THE FIFTH ISSUE OF THE UNIVERSITY WOMANAN'S MAGAZINE

In implementation of the intensive work program and the invitations presented by the French Embassy in Baghdad and the distinguished French universities to the University of Anbar, a delegation from our university headed by the President of the University, Professor Dr. Mushtak Talib Al-Neda, and the membership of the Dean of the College of Engineering, the Dean of the College of Sciences, and the Director of the Department of Scholarships and Cultural Relations, visited, in the presence of Mrs. Bernadicchio, the French Scientific and university cooperation Attaché in Baghdad, the CY Cergy University, known for its weight and academic influence at the French and European levels, which has an international alliance and partnership with 27 other French universities and 500 international memorandums of understanding.

## ANBAR JOURNAL OF AGRICULTURAL SCIENCES IS INDEXED IN SCOPUS

The University of Anbar has achieved a new scientific success in addition to its successive great scientific achievements. This is represented by indexing of Anbar Journal of Agricultural Sciences in Scopus. This has been confirmed by the email received from the content selection and advisory board (CSAB) as well as the tracking evaluation. It is the second university journal to be Scopus indexed after Al-Anbar Medical Journal. This is considered a scientific success at the level of colleges of agriculture in Iraq in general, as the Journal publishes in Arabic and English, to be the first bilingual indexed journal at the level of agricultural sciences. It is also considered a scientifically distinct qualitative leap that came as a result of the efforts made, careful follow-up, and proper planning by the President of the University, Prof. Dr. Mushtak Talib Al-Neda and according to the University's updated strategic plan and its careful follow-up.

## A MEMORANDUM OF UNDERSTANDING WITH THE NATIONAL UNIVERSITY OF MALAYSIA (UKM)

In harmony with the university's plan to develop the research and academic reality permanently, the President of the University of Anbar, Professor Dr. Mushtaq Talib Al-Nada, signed an important memorandum of understanding with the National University of Malaysia (UKM), which comprised activating joint scientific research through joint research teams, exchanging of academic staff, training of students, and benefiting from the expertise of the researchers in order to produce joint scientific patents.

# THE UNIVERSITY PRESIDENT VISITS ITQAN AND ASPETAR CENTERS IN QATAR

Professor Dr. Mushtaq Talib Saleh Al-Neda, the University President, visited the Itqan Center for developing clinical skills and creativity which is one of the largest medical simulation centers in the world. The center covers an area of 12 thousand square meters, (34) specialized training sites, (31) educational

technology training laboratories, Virtual and advanced halls for teaching and OSKE exams.

Mr. Amr Mohamed Al-Sayed Metwally, Assistant Executive Director at Itqan Center for developing clinical skills and creativity,

gave a detailed explanation of the center's working mechanism and its provision of medical services to the students of the Faculty of Medicine and its graduates from doctors and other faculties in the medical group and the provision of community services. The possibility of benefiting from the above center in transferring medical techniques, medical simulation skills, and training to the colleges of the medical group at Anbar University.

# FOUNDATION OF A SUSTAINABLE INTERNATIONAL RESEARCH PARTNERSHIP WITH THE FRENCH UNIVERSITY OF CERGY

In implementation of the intensive work program and the invitations presented by the French Embassy in Baghdad and the distinguished French universities to the University of Anbar, a delegation from our university headed by the President of the University, Professor Dr. Mushtak Talib Al-Neda, and the membership of the Dean of the College of Engineering, the Dean of the College of Sciences, and the Director of the Department of Scholarships and Cultural Relations, visited, in the presence of Mrs. Bernadicchio, the French Scientific and university cooperation Attaché in Baghdad, the CY Cergy University, known for its weight and academic influence at the French and European levels, which has an international alliance and partnership with 27 other French universities and 500 international memorandums of understanding.

## A MEMORANDUM OF UNDERSTANDING WITH UNIVERSITI SAINS MALAYSIA

On a special scientific day, the President of the University, Professor Dr. Mushtak Talib Al-Neda, signed a memorandum of understanding with Universiti Sains Malaysia (USM). At the beginning of the signing ceremony, the President of the University expressed his thanks to the presidency of Universiti Sains Malaysia (USM) for the good hospitality and warm

reception. His Excellency gave a presentation that included a comprehensive explanation about the university's scientific vision and goals in opening up to international universities and moving forward with the internationalization process, in line with the vision of the Ministry of Higher Education and Scientific Research and the university's updated strategic plan to internationalize the university, attract foreign students and professors, train teaching staff, and exchange research experiences.

## A MEMORANDUM OF UNDERSTANDING WITH THE MALAYSIAN UNIVERSITY OF TECHNOLOGY (UiTM)

In a significant scientific event, Prof. Dr. Mushtak Talib Salih Al-Neda, the President of the University of Anbar, signed a memorandum of understanding with UiTM. At the beginning of the signing ceremony, attended by important official representatives from both sides, the University's president presented a detailed overview about the University, its institutions, strategic plan, local, Arab, and global rankings, its outstanding success in the «Study in Iraq» initiative, its attraction of foreign students and faculty, as well as its solid scientific research indicators in international databases such as Scopus and Clarivates. These factors have made it a focal point of interest for Arab and foreign countries.

Both parties agreed to immediately commence serious work to activate the memorandum of understanding from the very moment of its signing. In his speech, the president of the University emphasized the importance of scientific and research cooperation, the organization of scientific conferences and joint workshops, and the establishment of effective research teams in common fields.
