

(CV)

Dr. HAMMOOD GHARBI KHALEEFAH

general information

1 . the address

- **Work: Anbar University - College of Agriculture / Department of Horticulture and Landscape Engineering**
- **Specialization: Horticulture and Landscape Engineering / Seed Production Academic Degree: Professor**

TI : 009647905825048 009647810698600

E-mail : .ag.hammood.gharbi@uonbar

Place of birth: Anbar / Al-Qaim

Nationality: Iraqi

Date of birth: 1961

Qualifications

Degree	University	Country	Date obtained
BSC	Salah al-Din- Erbil	IRAQ	1985
Masters	Baghdad	IRAQ	1989
Ph.D	Baghdad	IRAQ	1999

Master's thesis title: The effect of appointment and indole butyric acid on the rooting of woody cuttings of Mariana pear rootstock.

Title of the doctoral thesis: Some factors affect the characteristics of vegetative growth, flowering, and seed yield in three varieties of onions.

empolyement qualifications				
Function	Work place	Time period		Main tasks
		from	unitl	
Director of the Department	College of Agriculture - Anbar University	1993	1995	administration
Member of the examination committee	College of Agriculture - Anbar University	1999	2016	administration
Advisor	Anbar Agriculture Directorate	2001	2003	Scientific supervision
Teaching	College of Agriculture - Anbar University	1993	2016	Teaching - supervision
Research and development manager	College of Agriculture - Anbar University	2001	2003	Scientific management
Graduate Studies Officer	College of Agriculture - Anbar University	2002	2003	Scientific management
Head of the Horticulture Department	College of Agriculture - Anbar University	2005	2007	Department management
Chairman of the Scientific Promotions Committee	College of Agriculture - Anbar University	2006	2008	Committee management
Member of the College of Agriculture Development Chamber	College of Agriculture - Anbar University	2001	2003	Field supervision
Member of the writing and translation committee	College of Agriculture - Anbar University	2008	2012	Supervision and auditing
Member of the Preparatory Committee for the Fourth College of Agriculture Conference	College of Agriculture - Anbar University	2013	2013	Initialization – preparation

- Supervising master's and doctoral theses: Master/12
PhD/2
- Research evaluation:
A number of completed scientific researches that were published in scientific journals and scientific conferences, numbering 22, were evaluated.
- Participated in several discussion committees for doctoral and master's students .
 - Participation in master's discussion committees outside the university: 22 committees
 - Participation in doctoral discussion committees outside the university: 10 committees
 - Participation in master's discussion committees within the university: 26 committees

Specialized conferences and scientific seminars

Conference title	Conference location	Conference history	Nature of participation
Fifth Scientific Agricultural Conference Balkan Applied University	the Hashemite Kingdom of Jordan	2005/5/15	Participant
Fourth Agricultural Conference - College of Agriculture / Anbar University	Iraq - Anbar	2013	Participant
Guidance symposium on the use of agricultural technologies	Iraq - Ministry of Agriculture Anbar Agriculture Directorate	2013	lecturer
Date palm workshop between reality and ambition	Anbar University - College of Agriculture	2018	Chairman of the Committee
Million Tree Planting Symposium	Ministry of Higher Education and Scientific Research - Baghdad	2018	Participant

Published research

- The effect of date and indole butyric acid on the rooting of woody cuttings of Mariana pear rootstock 2624 (1991)
- The effect of the cutting process, timing, and indole butyric acid on the rooting of woody cuttings of Mariana pear rootstock. (1993)
- The effect of seed production and spraying with rose water on flower setting and onion seed germination (2000)
- Study of some factors affecting the seed viability of three onion varieties (2003)
- The effect of aerated storage and vapor gard on some qualitative characteristics of pomegranate fruits (2004)
- Response of wheat to irrigation with salt water under center pivot irrigation system (2004)
- Production of some wheat varieties in gypsum soils under sprinkler and pivot irrigation systems (2004)
- The effect of gypsum content in surface soil horizons on wheat productivity under center pivot irrigation system (2004)
- The effect of vapor gard and some treatments on the storage properties of orange fruits under ventilated storage conditions (2005)
- Producing seedlings of some vegetable crops in different organic media (2005)
- The effect of spraying gibberellin and licorice extract on onion seed production (2003)

- The effect of organic matter, soil coverage, and drip irrigation method on moisture and salinity distributions (2010)
- The effect of organic fertilizers, baking yeast, and breeding method on vegetative traits and cucumber yield under desert cooling conditions. (2012)
- The effect of adding organic fertilizers and baking yeast on some characteristics of vegetative growth and yield of two hybrids of cucumber under protected cultivation conditions. (2013)
- A questionnaire study on the design of gardens and outdoor spaces for the College of Education for Girls/University of Anbar (2014)
- Evaluating the local climate of the city of Ramadi according to human thermal comfort requirements and the role of green spaces in improving it (2015)
- Water consumption of onion crops under two drip irrigation systems (2010)

Published books

- Plant physiology/practical (2012)
- Study of exploitation and cultivation of the Western Desert of Anbar Governorate (2018)

- He was appointed since the establishment of the college in 1993
- He was assigned to several administrative and scientific activities
- Contributors to opening the Department of Horticulture in 2001 as one of the important departments in the College of Agriculture
- Various field activities. He was assigned to head the Horticulture Department 2006-2008
- Member of the Scientific Promotion Committee at the College of Agriculture for two years
- Chairman of the Academic Promotions Committee for two years
- He was reassigned to head the department from 2016-2020
- Rehabilitating the college and department fields in coordination and cooperation with service departments
- He contributed to opening postgraduate studies in the Department of Horticulture/Master's in 2008
- Contributed to opening postgraduate studies in the Department of Horticulture/PhD 2018
- Chairman of the Executive Committee of the Ministerial Million Trees Project since 2016-2020
- Member of the National Seed Production Program Committee
