1			
2			
3			

(13). Affiliation to Scientific Websites & Repositories

No.	Website Title	Name in Profile	Link
1.			
2.			
3.			

(14). Research Interests

No.	Subjects	Description
1	**Applied Linguistics**	A field of study that looks at how linguistics can help understand real-life problems in areas such as psychology, sociology and education. It studies multiple disciplines aimed at researching, identifying and providing solutions to language-related problems, and includes a wide range of areas, such as: language acquisition and teaching, literary studies, gender studies, speech therapy, speech and Communication Analysis, media studies, translation studies and lexicology, linguistics, and others.
2	**Research Methods**	It studies the methods or procedures that the researcher follows to study a specific problem or explain a certain phenomenon, which enables him to arrange his ideas, analyze them and present them in a scientific manner and reach results supported by relevant evidence.
3	**Blended Learning**	A new form of training and learning programs that appropriately mixes traditional classroom and virtual learning according to the requirements of the educational situation, with the aim of improving the achievement of educational goals at the lowest possible cost.
