

## Theses of Teaching Staff

## أطاريح ورسائل التدريسيين

Oral & Maxillofacial Surgery Department	Name	Degree	Title	Year
	Prof. Dr. Tahrir Nazzal Naif Aldelaimi	MSc	Ridge Augmentation	1999
		FIBMS	Expression of cytokeratin and epithelial membrane antigen in oral squamous cell carcinoma	2009
		DLMFS	Laser- Assisted frenectomy using 980nm diode laser	2013
	Assist. Prof. Dr. Kamal Turki Aftan	FIBMS	The Role of Resident Maxillofacial Surgeon in Casualty Department	2006
	Dr.Hamid Hammad Enezei	MSc	The role of protein deficiency in the healing of mandibular fractures (experimental study on rabbits)	2004
		PhD	Effect of VEGF and BCP on wound healing in critical sized mandibular defect-in vitro and in vivo studies	2015
	Dr. Elham Hazeim Abdlkreem	MSc	Uses of ultrasonography in the diagnosis of temporomandibular joint disorders	2004
		PhD	Development of an invitro model of periimplantitis	2013
	Dr. Anaes Hammad	FIBMS	Single Titanium Miniplate Osteosynthesis Of Mandibular Angle Fractures	2007
	Dr.Ahmed Jassam	CABMFS	Treatment of mandibular fractures using miniplate osteosynthesis via transoral approach	2013
	Dr. Sabah Abdul Rasul	FIBMS	The use of botulinum toxin A in temporomandibular joint disorders	2013
	Lecturer Muhammed Helal Hussain	Msc	Preparation of oxidized regenerated cellulose in Iraq and evaluation of its efficiency chemically and clinically	2004
Assist. Lecturer Liqaa Shalal Farhan	MSc	The role of green tea polyphenol and BCG vaccine in preventing and treatment of orally induced premalignant and malignant lesion in rabbit cheek mucosa by the use of 7,12 dimethyl benza [a] anthracene carcinogen	2005	
Prosthodontics Department	Name	Degree	Title	Year
	Assist. Prof. Dr. Ibrahim Hamad Mukhlif	MSc	Aluation of some physical and mechanical properties of new Iraqi dental stone	1999
		PhD	The effect of the poly vinyl pyrrolidone (PVP) addition on some properties of heat-cured acrylic resin denture base material	2009
	Dr. Salah Khalaf Abbas	MSc	Duplication of complete dentures using additional silicon with new measuring procedure	2004
		PhD	The effect of surface modification on microbial adhesion and biocorrosion	2015

			in selected maxillofacial prostheses	
	Assist. Lecturer Mohammed Riyadh	MSc	Complete denture complaints in geriatric patients	2005
	Assist. Lecturer Osama Abdul Rasool	MSc	Evaluation of the accuracy of modified impression technique for multiple angulated implants	2012
	Assist. Lecturer Najat Taha Jazaa	MSc	Stress applied on implant assisting mandibular complete overdenture –in vitro comparison of casted metal bar and infiba ribbon bar attachments	2014
<b>Department Of Conservative Dentistry</b>	<b>Name</b>	<b>Degree</b>	<b>Title</b>	<b>Year</b>
	Assist.Prof. Farid Ghiab Numan	MSc	Refractive resistance of teeth treated with root fillers and compensated with ready-made synthetic castings using different types of cement	2001
	Assist. Prof. Maher Mustafa	MSc	Profilometric study of the surface characteristic of porcelain by using different glazing and polishing techniques	1998
	Assist. Lecturer Ayad Mahmood	MSc	A study to evaluate the effect of obturation technique on sealer cement thickness and dentinal tubule penetration(in vitro study)	2008
	Assist. Lecturer Hanaa Abduljabbar	MSc	Evaluation of the effect of intermediate agents on the shear bond strength of repaired aged silorane resin composite	2012
<b>Prevention Orthodontic &amp; Pedodontics Department</b>	<b>Name</b>	<b>Degree</b>	<b>Title</b>	<b>Year</b>
	Assist.Prof. Dr. Raad Saleh Shehatha	PhD	Molybdenum level in permanent teeth, enamel and saliva of a group of adolescents in relation to dental caries and gingivitis and its effect on solubility, microhardness and fluoride uptake of dental enamel (an in vivo and in vitro study)	2007
	Lecturer Lamia Ibrahim	MSc	Oral health status among iron deficiency anemic children aged 5-13 in Baghdad -Iraq	2003
	Lecturer Zainab Bahjat	MSc	The clinical effectiveness of chlorohexidine/ thymol containing varnish in the prevention and treatment of chronic gingivitis associated with fixed orthodontic appliances	2002
	Assist. Lecturer assim Ali Jassim	MSc	Association between upper dental arch dimensions and facial type in adult with class I normal occlusion (a computerized study)	2010
	Assist. Lecturer Mohammed Khudher Abdulhammed	MSc	Sella Turcica features and it's relation to anterior facial skeleton in Iraqi sample aged 18-30 years (a lateral cephalometric study)	2010

	Assist. Lecturer Assem Abbas	MSc	Evaluation and comparison of frictional forces generated by three different ligation methods (an in vivo study)	2010
	Assist. Lecturer Mohammed Ismael	MSc	Oral health status and treatment need among workers of El-Kubaisa cement factory in Anbar Governorate	2013
	Assist. Lecturer Laith Hamoud	MSc	An evaluation of craniofacial reference planes in natural head position while standing and sitting (a comparative photographic and cephalometric study)	2012
Oral Diagnosis Department	<b>Name</b>	<b>Degree</b>	<b>Title</b>	<b>Year</b>
	Dr. Aus Waleed Abbas	MSc	Prevalence of candida species and oral candidiasis during menstrual cycle in a sample of women in Baghdad city	2008
		PhD	Clinical evaluation, oxidative status and apoptotic activities biomarkers in serum and saliva of patient with oral lichen planus	2013
	Dr. Afrah Adnan Khalil	MSc	Immunohistochemical expression of matrix metalloproteinase 9 and vimentin in relation to clinco-pathological parameters of oral squamous cell carcinoma	2009
		PhD	Immunohistochemical expressions of AKT in correlation with BAD, ATM, Cyclin E, MDM2, P21 and clinicopathological parameters of oral squamous cell carcinoma	2015
	Dr. Shaimaa Hamid Mdher	MSc	Salivary and blood lead analysis in relation to oral and salivary findings (clinical, biochemical and cytological study)	2008
		PhD	Clinical utility of salivary microRNA (miRNA-125a, miRNA-200a, miRNA-93) for detection of oral squamous cell carcinoma	2013
	Dr. Wedad Farhan Jaber	MSc	Salivary analysis and oral symptoms in controlled asthmatic patients	2004
		PhD	Oral findings, Hormonal assay and cytokines biomarkers in serum and saliva of postmenopausal women with osteoporosis	2016
	Dr. Rehab Faisal Ahmed	MSc	The effect of oral contraceptive pills intake on biochemical composition and secretion on lyophilized saliva and associated oral manifestations	2005
		PhD	The study of oral findings and salivary biomarkers levels in uncontrolled type I diabetic patients	2016
		MSc	Investigating of differences in the mandibular inferior cortical thickness on digital panoramic image in women	2008

	<b>Dr. Mahmood Abd Hammad</b>		<b>at different age groups</b>	
		<b>PhD</b>	<b>CBCT analysis of the pharyngeal airway in individuals with non-syndromic cleft lip and palate: a retrospective study</b>	<b>2015</b>
	<b>Assist.Lecturer Mohanad Aftan Hamad</b>	<b>MSc</b>	<b>Presurgical Evaluation of Impacted Mandibular Third Molar Using Digital Fluoroscopy. (Comperative Study Using Intra Oral Conventional Bisecting Line Angle Technique)</b>	<b>2011</b>
	<b>Assist.Lecturer Shakir Mahmood Ali</b>	<b>MSc</b>	<b>Assessment of the Efficacy of Oral Dapsone and Topical Triamcinolone Acetonide in the Treatment of Recurrent Aphthous Stomatitis ( A Comparative Open Placebo-Controlled Therapeutic Trial)</b>	<b>2012</b>
	<b>Assist.Lecturer Aseel Mohsin Alani</b>	<b>MSc</b>	<b>Evaluation of the effect of autologous platelet rich matrix on osseointegration of the titanium implant (radiographical &amp; immunohistochemical studies in rats)</b>	<b>2012</b>
	<b>Assist.Lecturer Abdul Naser Hatem</b>	<b>MSc</b>	<b>Effect of topical application of growth hormone on osseointegration of cp Ti implant</b>	<b>2013</b>
	<b>Assist.Lecturer Raida Noori Hamid</b>	<b>MSc</b>	<b>Effect of Industrial cement Dust on salivary PH, flow rate, electrolyte and oral manifestations for cement workers at kubbesa factory</b>	<b>2012</b>
<b>Basic Sciences Department</b>	<b>Name</b>	<b>Degree</b>	<b>Title</b>	<b>Year</b>
	<b>Prof. Dr.Hassan Ali Mutar</b>	<b>MSc</b>	<b>Epidimological study on the contamination of the sheep meat by salmonella in Anbar Governorate</b>	<b>1994</b>
		<b>PhD</b>	<b>The study of selenium`s effect and zinc on some immunological and histological characters in Guinea Pigs</b>	<b>2004</b>
	<b>Assist.Prof.Dr. .Mahmood Salih Mutar</b>	<b>MSc</b>	<b>Synthesis and characterization of some rhenium (v) complexes containing oxo and nitrogen cores. And their stability towards (γ) irradiation</b>	<b>2001</b>
		<b>PhD</b>	<b>Synthesis &amp; physic-chemical studies of novel Schiff base ligands derived from (2,6-di (phenyl- 4- methyl) {3.3.1} azabicyclo-9- one) and their metal complexes</b>	<b>2006</b>
	<b>Dr. Muna Mohammed Yassin</b>	<b>MSc</b>	<b>The effect of continuous exposure to cupper and zinc on liver functions and iron absorption in the workers of Al-Shaheed Company</b>	<b>2002</b>
		<b>PhD</b>	<b>Purification and kinetic study of adenosine deaminase in serum of breast cancer patients in Ramadi City</b>	<b>2016</b>
		<b>MSc</b>	<b>Effect of zinc and cupper on some physiological aspects of Driessena</b>	<b>2010</b>

	<b>Dr. Ahmed Sami Farhan</b>		<b>polymorpha</b>	
		<b>PhD</b>	<b>Isolation and identification of amygdalin from apricot kernel and study the combination of amygdalin-magnetized water on induced tumors in rats</b>	<b>2015</b>
	<b>Dr. Thana Ismael Mustafa</b>	<b>MSc</b>	<b>Study of some physiological changes for renal failure patients in Saddam General Hospital in Ramadi</b>	<b>2001</b>
		<b>PhD</b>	<b>Levels of vitamin D in patients with diabetes mellitus in relation with insulin, leptin and some associated immunological parameters</b>	<b>2016</b>
	<b>Lecturer Khadija Khulaif Abdulla</b>	<b>MSc</b>	<b>Epidemiological study of Entamoeba Histolytica parasite in Ramadi City</b>	<b>2001</b>
	<b>Lecturer Karama Tahreer Ahmed</b>	<b>MSc</b>	<b>Taxonomic and molecular study of some virulence factors in clinical isolates of Proteus Mirabilis</b>	<b>2002</b>
	<b>Lecturer Ehsan Ali Abed</b>	<b>MSc</b>	<b>Luminescence spectra for two dyes rhodamine B, rhodamine 6G in different media</b>	<b>2002</b>
	<b>Dr. Saad Abdulkreem</b>	<b>MSc</b>	<b>Iraqi Balance of Payments 1990-2009 An analytical study on the causes of imbalance and treatment methods</b>	<b>2011</b>
		<b>PhD</b>	<b>Effectiveness of some variables of total expenditure on the flow of foreign direct investment in the Iraqi economy for the period 2003-2014</b>	<b>2017</b>
	<b>Assist. Lecturer Rana Hazim Hamoodi</b>	<b>MSc</b>	<b>Studing some chemical of seeds the Prosopis Farcta and their anti-bacterial effects</b>	<b>2008</b>
<b>Lecturer. Sudad Salman Ali</b>	<b>MSc</b>	<b>Aerobic and facultative anaerobic bacteria associated with tonsillitis in primary school age in Ramadi City</b>	<b>2000</b>
