## 1. Program Vision

The clear vision that we envision in the strategic academic program is to make the faculties of Islamic sciences, and in particular the Department of Jurisprudence and its Principles, a beacon of knowledge and a factor of guidance in the social community, consolidating strong and correct foundations for belief in God and His monotheism, and demonstrating moral methods in Islamic law based on its constants, general organization, and law includes transactions here between people, Al-Hur, which is the body of spring and sale, rights and duties, money and honour, the preservation of souls, the stability of the mother, the stability of part of the Sharia, and the controls of what comes after it. The college of Islamic sciences of their knowledge are implemented according to their mechanical specialization.

## 2. Program Mission

The colleges of Islamic sciences, including the Department of Jurisprudence and its Principles, work to create a scientific environment that is compatible with comprehensive quality standards in the fields of higher education and scientific research, and work to qualify distinguished specialists in the field of Sharia, scientifically and intellectually, which allows them the ability to participate effectively in community service and outstanding performance in the theoretical and scientific Sharia fields. The Holy Qur'an, the noble Sunnah of the Prophet, the biography of the Prophet Muhammad, may God bless him and grant him peace, and his tolerant law are a basis for cognitive expansion and an indicator of sound cognitive behavior, in addition to general human moral principles.

## 3. Program Objectives

- Preserving jurisprudence and its principles.
- Preparing and presenting specialized scientific competencies that meet the needs of the contemporary Islamic community at home and abroad in the fields of teaching jurisprudence and its principles, imamate, rhetoric, advocacy, and realizing the scientific heritage.
- Forming an Islamic personality that belongs to its religion, country, and nation and is distinguished by a deep understanding of Islam
- Striving to create an atmosphere characterized by moderation and moderation, combining authenticity and modernity, while understanding the objectives of Islamic law.
- Spreading Islamic and national culture and the spirit of tolerance, love and societal peace.
- Teaching students the mechanism of reviewing sources in general, and important Islamic sources in particular.
- Improving the reality of curricula.

Mahmoud Aqeel	Quran sciences					Lecturer

## Professional Development

### Mentoring new faculty members

The scientific department has a special complementary approach to the faculty guidance strategy through the vision statement, mission, and goals of the college. The department does not follow up on personnel affairs properly for the executive staff and is able to self-control.

### Professional development of faculty members

One of the axioms of the scientific department in the professional development of college members is to set a schedule specifying training courses and workshops in addition to seminars, all of which would increase the professional ability and quality of the college members.

## 12. Acceptance Criterion

Through the private admission and central admission channels.

## 13. The most important sources of information about the program

- Market needs.
- the Guidance of the governorate.
- Scientific studies.

#### 14. Program Development Plan

##### Teaching staff

- Contributing to developing the competence of teaching staff in the department in a way that is compatible with the development of the humanities
- Contributing to providing universities, colleges and various institutions with academically qualified graduates who hold master's and doctorate degrees.

##### Educated people

- Paying attention to providing learning opportunities and acquired experiences that develop students' capabilities and orientations.
- Using new concepts in the field of al-sharia sciences and using electronic devices to present information and issues when necessary.
