THE HONORABLE PRESIDENT OF THE UNIVERSITY'S SPEECH ON THE OCCASION OF THE COMMENCEMENT OF THE NEW ACADEMIC YEAR (2024/2023)

My colleagues and fellow staff members... My daughters and sons, dear students.. May the peace, blessings, and mercy of Allah be upon you..

Professor **Mushtak Talib Salih Al-Neda**
The University President

On the occasion of the commencement of the new academic year (2024/2023), it gives me great pleasure to extend to you the most sincere words of welcome, scented with feelings of happiness in meeting you again after you enjoyed a summer vacation. I ask Allah that it be a happy and beneficial holiday for you.

What increases my happiness is that you return to your university to decorate its halls, delight its laboratories, and beautify its gardens and courtyards. The university was prepared to receive you and wore its splendid clothes after its honorable sons completed important projects, restoring freshness to its gardens to receive you, and preparing its halls and laboratories to embrace you..

My colleagues and fellow staff members.. My daughters and sons, dear students..

As we receive a new academic year, I bring to you good news of the establishment of new scientific departments and postgraduate programs in some faculties, the completion of some qualitative and important scientific projects, and moving forward in the openness

and internationalization of the university by signing memorandums of understanding with sober international and Arab universities, and this is an incentive for all of us to do more for upgrading the level of our university to be in the ranks of advanced universities at the local, regional and international levels, with the permission and help of Almighty Allah, and then with the strength of the courageous who are like you.

I hope that this year will be a happy and beneficial academic year, and a year of great qualitative achievements.

Welcome to all of you, and may Almighty Allah bless you in your big house, the University of Anbar.

THE UNIVERSITY ACHIEVES ADVANCED RANKINGS IN THE TIMES

The University of Anbar has achieved advanced rankings locally and internationally in the Times Ranking of scientific disciplines. The University has ranked the first locally in life sciences, computer sciences, and engineering, and the third in physics in the famous British Times Ranking.

The International Ranking Unit at the University Presidency announced that the British Times Ranking has officially launched today the version of the ranking for disciplines for this year. It indicated that the University's achieving these rankings within the Times Ranking, which is considered one of the most important global ranking systems, was a result of the scientific plans followed by the University Presidency and direct support by the President of the University, Prof. Dr. Mushtak Talib Saleh Al-Neda, members of the University Council, and the staffs of all colleges and faculties of the University, for the work of the International Ranking Unit at the University.

THE UNIVERSITY ISSUES UNIVERSITY ORDERS OF ADMISSIONS FOR 252 STUDENTS FROM 37 FOREIGN COUNTRIES.

Welcoming international students at its institutions....

The University of Anbar has issued university orders of admission for international undergraduate and postgraduate students in the various colleges of the University, with a total number of (242) undergraduate students and (10) postgraduate students from (37) different countries of the world. This experience is the first of its kind, and it comes within the (Study in Iraq) initiative launched by His Excellency the Minister of Higher Education and Scientific Research. It is one of the most important criteria in appraising our University institutions in the global ranking systems towards implementing the strategic plan to open up to international universities.

ACADEMICS COAUTHOR A BOOK PUBLISHED IN THE ELSEVIER INTERNATIONAL PUBLISHING HOUSE

Academics at the College of Applied Sciences–Heet/University of Anbar, namely, Asst. Prof. Dr. Rasem Farrag Muslim, Asst. Prof. Dr.. Mustafa Nadhim A'wai, Heet Directorate of Education, and a lecturer at the College, and Asst. Prof. Muwafaq Ayesh Rabia' have coauthored a book with academics and scholars from the rest of the world's top-ranking universities. The book is published in the Elsevier International Publishing House, which is indexed in Scopus and Web of Science. Academics at the College of Applied Sciences – Heet wrote two chapters of this book, which is entitled 'Advances in Nanotechnology-Based Drug Delivery Systems.

The President of the University has appreciated the efforts of the academics, hoping that all scholars at the University of Anbar will exert more efforts in authoring and publishing researches in global indexes to elevate the status of the University among Arab and international universities.

TWO STAFF MEMBERS FROM THE COLLEGE OF ENGINEERING OBTAIN A PATENT

Prof. Dr. Khaled Farouk Abdel Ghafour and Asst. Lecturer Laith Latif Hamed from the College of Science achieved the patent entitled (An Improved Method for Adopting the Analysis of the Level of Beta-Eristine Protein in the Blood as one of the Diagnostic Tests for the Detection of Type 2 Diabetes). The research team was able to find an improved method to adopt the analysis of the level of Beta-Eristine protein in the blood as an additional diagnostic factor to determine diabetes mellitus and its complications (type 2) with good accuracy and sensitivity for use in the medical, research fields and in the diagnostic laboratories of the Ministry of Health. It is worth noting that the patent is the product of a joint team work amongst different Iraqi universities.

SCIENTIFIC AND ACADEMIC COOPERATION WITH SPANISH UNIVERSITIES

The President of the University of Anbar, Prof. Dr. Mushtak Talib Saleh Al-Nida, has received Dr. Hussein Al-Rikabi, the Head of the Association for the Promotion of Iraqi-Spanish Relations and a staff member at the University of Cordoba/Spain. The visit aims to open horizons of scientific and academic cooperation between the University of Anbar and the Spanish universities. The President of the University

of Anbar welcomed this visit and expressed the great desire of the University of Anbar to open horizons for scientific and academic cooperation through signing memorandums of understanding with discreet Spanish universities, activating research programs and exchanging expertise between the two parties. These activities are hoped to begin during an official delegation's visit to

Spanish universities based on the official invitations handed to the President of the University to visit Spanish universities, including the University of Granada, University of Cordoba, University of Seville and University of Valencia.

AN ACADEMIC AT THE UNIVERSITY OF ANBAR HONORED FOR WINNING THE BOOK AWARD

During the Science Day celebration hosted by the University of Baghdad, His Excellency the Minister of Higher Education and Scientific Research has honored Prof. Dr. Saif Al-Din Abdul Razzaq Salem from the Center for Desert Studies at the University of Anbar with the Distinguished Written or Translated Book Award, in the presence of Prof. Dr. Muthana Muhammad A'wad, Vice President of the University for Scientific Affairs.

The Minister of Higher Education and Scientific Research, Dr. Naeem Al-Aboudi, stated in his speech during the honoring ceremony that the successes achieved by the educational institution hold everyone the responsibility for continuous development to improve quality indicators and enhance scientific research environments that make universities and academic institutions sustainable service centers that meet all the needs of society and all the requirements of the national labor market.

A RESEARCH TEAM FROM THE UNIVERSITY DOCUMENTS THE HISTORY OF THE ISLAMIC WAQF IN ANBAR

Based on the directives of the presidency of the University of Anbar to affiliate with society and provide scientific and research services, researchers from the University of Anbar, staff members in the Department of History - College of Education for Humanities, documented the history of the Islamic Waqf (Endowment). This came during the formation of a research team based on the desire of the Islamic Endowment Directorate in the governorate. The study titled: "the Sunni

Endowment in Anbar: A Documentary Study" and published in the twentieth volume / third issue / September 2023 of The Journal of University of Anbar for Humanities is to give a historical and cultural dimension to Anbar Governorate, and to demonstrate the role that the religious institution plays in spreading Islamic awareness and adopting the principle of moderation as an approach in its speech.

THE COLLEGE OF LAW AND POLITICAL SCIENCE HOLDS ITS 1ST SCIENTIFIC CONFERENCE

Under the patronage of His Excellency the Minister of Higher Education and Scientific Research, Dr. Naim Al-Aboudi, and in the presence of Prof. Dr. Adnan Al-Jumaili, representative of the Minister of Higher Education and Scientific Research, the Governor of Anbar Province, Dr. Ali Farhan, Dr. Yassin Al-Ithawi, Chair of the Education Committee in the Iraqi Parliament, Mr. Mayor of Ramadi, and a number of scientific figures, the College of Law and Political Science has held its 1st Scientific Conference entitled 'Legal and Political Reform in Iraq: Reality and Ambition'.

The conference began with the recitation of verses from the Holy Quran, then the Iraqi national anthem was played, and Surah Al-Fatiha was read to the souls of the martyrs of Iraq and Gaza. After that, a short film produced by the Department of Media and Government Communication at the University Presidency was displayed about the College of Law and Political Science. Then, a speech by the President of the University was delivered, in which he indicated that those in charge of the Conference made their first goals to identify

weaknesses and deficiencies in the legal and political field, diagnose them, then present proposals to address them in a way that contributes to the major reform process Iraq is witnessing. At the end of his speech, the President of the University thanked His Excellency the Minister of Higher Education and Scientific Research for sponsoring the Conference. He also thanked those in charge of the Conference, committees and

participants. The Conference also included speeches by the representative of His Excellency the Minister of Higher Education and Scientific Research and a speech by the Conference Chairperson, Dean of the College of Law and Political Science.

After that, the Conference sessions began to discuss a number of articles in the legal and political fields. The Conference aims to provide specialized scientific studies to diagnose weaknesses and deficiencies in the legal and political fields and propose appropriate solutions in a way that contributes to the major reform process Iraq is witnessing in order to reach a mature experience that achieves stability, prosperity, and societal peace, enhance intellectual cohesion among researchers in the College of Law and researchers in the Iraqi, Arab and foreign universities and create a scientific and cultural environment which aims at upholding the values of excellence and scientific distinction.

THE UNIVERSITY CONCLUDES A MEMORANDUM OF UNDERSTANDING WITH THE UNIVERSITY OF JORDAN

The University of Anbar has signed a memorandum of understanding with the University of Jordan. The University president of Anbar, Prof. Dr. Mushtaq Talib Al-Nida, and the President of the University of Jordan, Prof. Dr. Nathir Al-Obeidat signed a memorandum of understanding for the purpose of strengthening scientific and academic cooperation frameworks, exchanging expertise, conducting joint research, and participating in supervising postgraduate students' theses and dissertations, in addition to participating in applying for international grants, including the European Union grants. Al-Nida emphasized the University of Anbar's enthusiasm to build bridges of full scientific, research and academic cooperation with all institutions of the University of Jordan, including the invitation to participate in conferences, scientific seminars, forums and joint international research cooperation.

OPENING TWO IELTS CENTER AT THE UNIVERSITY OF ANBAR

The IELTS Centers were opened at the University of Anbar in the presence of His Excellency the British Ambassador Stephen Hitchen. This happened during his visit to the University. He was received in the University president's office with his accompanying delegation, whereby the University president gave a detailed description of the University of Anbar and its institutions, colleges and research centers. The discussion also addressed the destruction the University was exposed to in the previous time and how it was able, during a record period, to rebuild itself with the efforts of its members and supporting parties.

His Excellency the British Ambassador expressed his happiness at visiting Anbar Governorate and the University of Anbar, noting that what the University has achieved after the events of ISIS is in itself a qualitative achievement, indicating his desire to sign a work contract with the University, and to cooperate with the University and the Governorate as well.

A MEMORANDUM OF UNDERSTANDING WITH THE JORDAN UNIVERSITY OF SCIENCE AND TECHNOLOGY

In implementation of the aspirations and strategic plan of our University, and linking it scientifically and academically with discerning international and regional universities to serve our dear country, the President of the University of Anbar, Prof. Dr. Mushtak Talib Al-Nida, at the head of a high-level delegation, has visited the Jordan University of Science and Technology to sign a memorandum of understanding between the two universities. The memorandum aims at strengthening scientific cooperation frameworks, exchanging expertise, delivering lectures, conducting joint research, and co-supervising postgraduate theses and dissertations. The memorandum also includes an invitation to participate in scientific conferences and seminars, and to organize scientific and cultural visits for students.

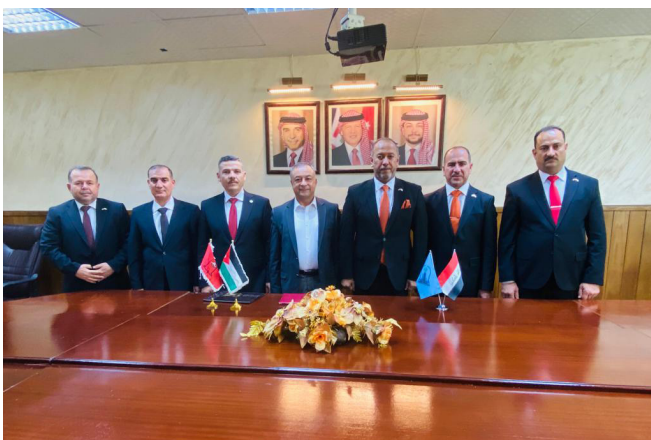

A MEMORANDUM OF UNDERSTANDING WITH MUTAH UNIVERSITY/ JORDAN

In continuation of the visit of our University official delegation to Jordanian universities headed by the President of the University of Anbar, Prof. Dr. Mushtaq Talib Al-Nida signed a memorandum of understanding with the President of Mutah University, Prof. Dr. Salama Al-Naimat. In accordance with this memorandum, visits will be exchanged between faculty members, laboratory technicians, and students in the field of science,

engineering, computing, agriculture and other common disciplines. The memorandum also allows faculty members to participate in joint supervision on theses and dissertations, in addition to participating in viva committees, as well as the active participation in applying for research and academic international grants. Al-Nida emphasized the University's enthusiasm for building bridges of full scientific, research and academic cooperation with all institutions at Mutah University, including the invitation to participate in conferences, scientific seminars, forums and joint international research cooperation.

THE PRESIDENT OF THE UNIVERSITY OF ANBAR HEADS A HIGH-LEVEL DELEGATION

In implementation of the directives of the Ministry of Higher Education and Scientific Research in building bridges of scientific and academic cooperation between public and private universities, the vice-President for Scientific Affairs, Prof. Dr. Muthanna Muhammad Awwad, signed a scientific and academic cooperation agreement with Al-Huda University College aimed at integrating scientific capabilities and strengthening the bonds of joint scientific cooperation and believing in the importance of relying on the Scientific energies, capabilities and capabilities of University of Anbar (the mother university in the governorate) as well as in strengthening the status of Al-Huda University College and supporting it with expertise.

The vice-president expressed the readiness of our university to provide all facilities that serve the academic interest in our governorate and our dear country. In turn, the Dean of Al-Huda University College expressed his happiness at signing this cooperation, stressing that the terms of the agreement will be activated with all colleges, especially the College of Engineering and the College of Pharmacy, in a way that serves the interests of both parties.
