

First Semester

Subject :programming C++ Language

Stage : Second

1. Introduction C++

- History of C++
- General Definition
 - *Program*
 - *Programming*
 - *Source code*
 - *Object code*
 - *Compiler*
 - *Program cycle*
- Operators
 - ARITHMETIC OPERATORS
 - comparison operators .
 - Logical Operators.
- **Special Character**
- **NUMBERS**
 - INTEGER
 - SHORT INTEGGER
 - LONG INTEGER

- FLOAT
- DOUBLE
- LONG DOUBLE

2 - Variables

- Declaration of variable.
- Assignment Statements
- Receiver Words

Structure OF C++ Language

- Comments Statements

4. input / output.

- cin function
- cout function
- Exercises
-

5. if ... statement

- Switch case
- Exercises

6 . Looping

- for
- while
- do-while
- Exercises
